1. Executive Summary

During the month of July 2025, I facilitated two learner groups—Group G010 and the Ghana Group—with a focus on reinforcing foundational concepts, onboarding students who were behind, and introducing hands-on development tasks. The sessions were well-received, with improved learner participation and engagement, especially in Group G010. In addition to facilitation, I dedicated time to technical content development, including the creation of marathon coding challenges, user help documentation, and app testing support.

2. Group G010

2.1 Learner Roster

- Makhaya Mulalo
- Leseba Seema
- Sambo Katlego
- Malwela Adivhaho
- Sithebe Ntando
- Khalifa Anda

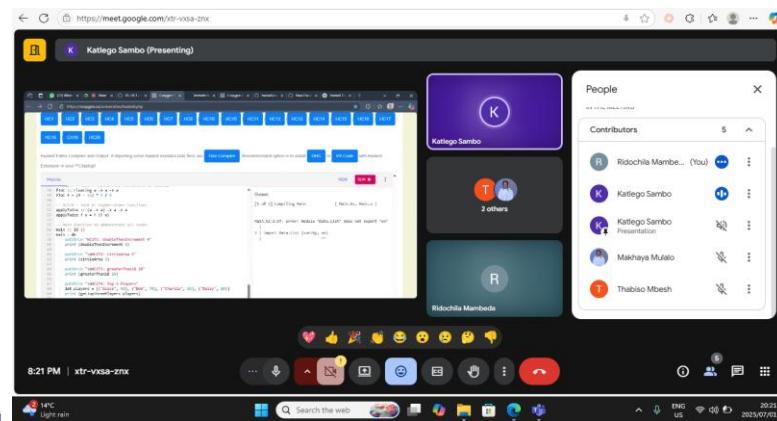

2.2 Activities Delivered

- Guided learners through the step-by-step setup of the new mobile application.
- Revisited and completed the Chapter 1 lesson and its practical task to support those who were behind.
- Covered Chapter 2, ensuring foundational understanding.
- Conducted one-on-one sessions with select learners to offer tailored support and mentoring.

3. Ghana Group

3.1 Learner Roster

- Agbenyega Caleb
- Owusu Isaac
- Boafo Elikplim
- Bunyamin Alhassan
- Karikari Gyima
- Chidemna Promise
- Agbenyega Clement

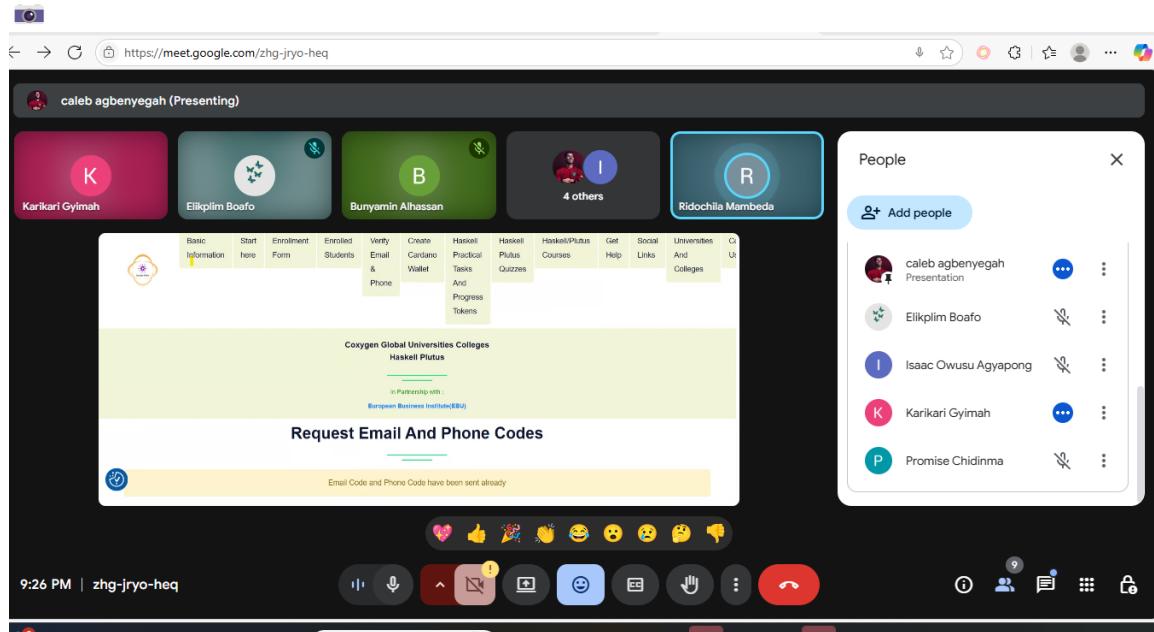

3.2 Activities Delivered

- Facilitated enrollment and identity verification.
- Assisted learners with wallet creation and understanding its function.
- Delivered Chapter 1 content alongside the practical task walkthrough.

4. Personal Technical Contributions

4.1 Mobile App User Help Documentation

- Authored a user-friendly help guide for the mobile application, including visuals and step-by-step instructions.
- Aimed at improving user independence and reducing support requests.

4.2 Marathon Questions (Chapters 16–18)

- Developed challenge-based coding problems aligned with:
 - Chapter 16: Pattern abstraction and ‘Semigroup’/‘Monoid’ usage

- Chapter 17: Custom data types and composition
- Chapter 18: Monad-based tasks and error handling
- Each question encouraged learners to create real-world demo console apps for deeper understanding.

4.3 Application Testing

- Conducted functionality testing on the mobile application.
- Identified bugs, usability issues, and provided suggestions to improve user experience.

5. Recommendations & Observations

- Group G010 demonstrated strong consistency; standout learners include Makhaya, Leseba, and Sambo.
- The Ghana Group had a solid start; additional support will ensure continuity.
- Repeating Chapters 1 and 2 helped address knowledge gaps.
- One-on-one sessions were effective and should be continued.
- Suggest implementing peer coding circles or group challenges to boost collaboration.
